“ARMING YOU
WITH THE
RIGHT AND
QUALITY SERVICES

About Us

شركة مقياس المحيط للمقاولات Ocean Scale Contracting Company

Ocean Scale is one of the leading contracting companies in the kingdom provides Civil, Electrical, Instrumentation contracting, project management for Commercial Projects, Oil & Gas Projects, turnarounds, shutdown and maintenance.

Ocean Scale provides pioneer Construction service, Consistent Maintenance, Accurate Testing and precise Calibration Services for Oil and gas projects.

Vision & Mission

We strive to provide quality services that exceeds customer expectations and to deliver high quality, cost effective projects on budget and schedule.

SERVICES

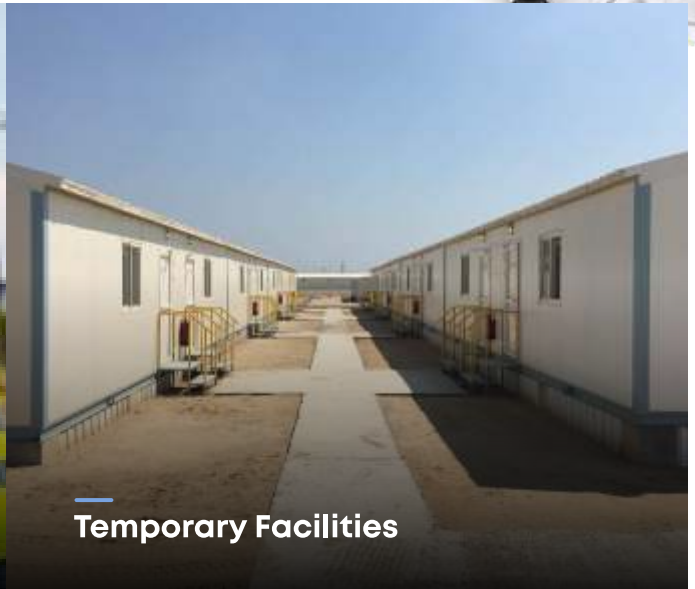

- › Industrial Contracting
- › Equipmental Rental
- › Industrial Trading
- › MEP
- › Manpower
- › Waste Management
- › Scrap Metal Trading
- › Fabrication

Civil Contracting

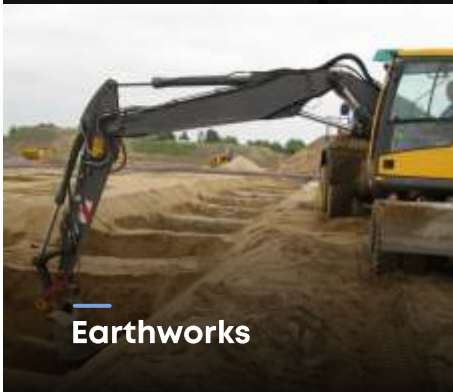

Ocean Scale Civil arm, proud to be a leading provider of Execution services in the fields of residential, commercial & industrial project. Since our establishment we have built our reputation on outstanding execution concepts, value management and timely project delivery. We have the suitable resources and experience to meet the needs of a wide variety of clients.

Land Development

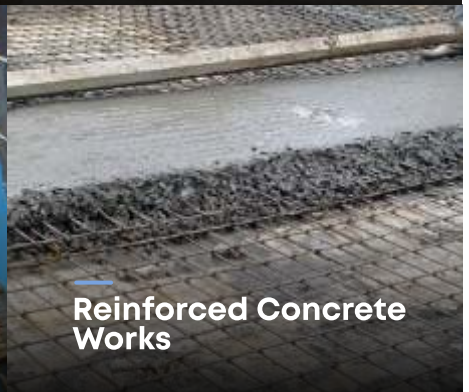

Temporary Facilities

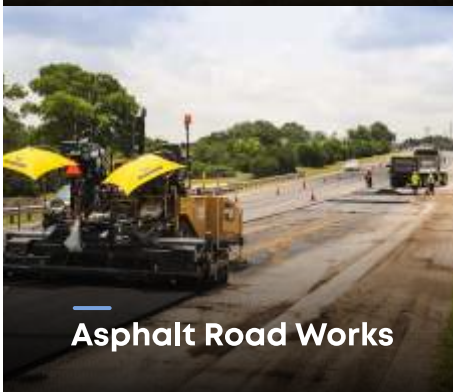

Earthworks

Enabling Works

Reinforced Concrete Works

Asphalt Road Works

Fence and Parking Lots Works

Interior Fit-out Works

Electrical Contracting

Ocean Scale has a deep experience in the field of electrical and power. When it comes to electrical works, we aim to be a leader in the field. Our expertise not only covers installation, but also starts from planning systems that fit the needs and requirements of clients, and continues with full support to ensure well-functioning of systems.

Electrical Services Includes:

- HV, MV & LV Transformers Installation & Pre-commissioning
- (All Ratings, Excitation, Isolation, Neutral Grounding Unit Auxiliary, Generator Step-up up to 500MVA)
- Iso Phase Bus Duct (IPB), Non-Segregated Bus Duct (NSB), GIB (132kV & 380kV)
- Generator Installation & Pre-commissioning (All Ratings)
- Switchgears & Switchboard (MV & LV) Installation.
- Panel Installation (Electrical, Control & Instrumentation)
- UPS / DC systems Installation
- Lighting Systems
- Cable Pulling (HV, MV & LV)
- Cable Terminations (MV & LV)
- Installation of Cable Tray, Conduit and Raceways Power (third rail)
- Fiber Optic Cable splicing & termination works.
- FO / MV cable splicers (up to 33 kV)
- Fault analysis of hardwire relay logic, motor control circuits, motor power circuits (120V to 480V 3phase) and common utility / lighting circuits.
- Installation of new control circuits, modification of existing electrical systems as requested.
- Fault analysis of PLC based systems with control logic modification if required.

**ONE STOP
SOLUTION
FOR ALL YOUR
ELECTRICAL NEEDS**

Instrumentation Contracting

Ocean Scale has highly skilled, qualified and competent Instrument specialized team. We can support our clients for different projects in phase of Construction, Commissioning, Startup and Maintenance support. Additionally we are able to provide design, specification and third party (vendor support).

Instrumentation Services Includes :

- Instrument Installation (Field)
- Installation of Transmitters, Switches & Gauges for Pressure, Temperature Flow and Level application, Control Valves, on / off valves, Breather valves, Safety Valves, panels, junction boxes
- Installation including instrument and control cabling and terminations, Cable trays, marshalling panels, instrument air/gas tubing and impulse piping
- Instrument calibration , all kinds of Transmitters & Valves
- Loop tests & Continuity checks
- Installation, Calibration, Modification and function checks of Analyzer system.
- Ability to pre-fabricate instrument support & other fabrication work for control packages
- Fabrication & installation of sunshade for field instruments
- Field fault analysis – determines if instrument has failed or if it is a process problem;
- Field calibration of instrumentation utilizing proper test equipment;
- Complete overhaul in shop environment to include component replacements, alignments and calibration to specifications of record;
- Repair of signal transmission facility such as tubing, wiring, etc.

**ENHANCING
THE FUTURE.**

Fabrication

Ocean Scale fabrication shop fully equipped to deliver premium industrial metal work services quickly and efficiently.

Our technical expertise coupled with highly skilled engineers, NDT and welding technicians and highly qualified craftsmen to complete such scope on time and to more than satisfactory levels of quality, to execute the complicated structures too and this is done with the help of well-equipped factory which has:

- › Advanced CNC machines
- › Automatic and semi-automatic production machines.
- › Plate bending machines with pre pinching arrangement.
- › Plate Rolling machines.
- › Hydraulic Press.
- › Hydraulic Shearing machines.
- › CNC Plasma Cutting machines.
- › Other related machines which are required to achieve the competitive edge

Plant Maintenance Services

- › Heat exchanger maintenance, overhauling, retubing, bundle pulling
- › Column revamp, replacement of trays / internals
- › Pipelines, valves maintenance / modifications
- › Tank cleaning and maintenance, bottom change out and repairs
- › Hydraulic torquing / tensioning
- › Blinding and de-blinding of equipment and systems
- › Tank Cleaning
- › High Pressure Water Blasting
- › Boiler Cleaning
- › Liquid Vacuuming
- › Dry Product Removal
- › Tank & Pipe Cleaning
- › Grit Blasting

Waste Management & Scrap Metal Trading

Ocean Scale General Contracting Company undertake a major waste disposal services in the Eastern Province of the Kingdom of Saudi Arabia.

Ocean Scale has been making continuous growth ever since with diversified industrial services and areas of operation to meet the specialized needs of the growing Oil and Gas, Petrochemical, Power and other Industrial Sectors.

Today **Ocean Scale** is active throughout the Saudi Arabia offering a full spectrum of Industrial and Environmental Services and having Offices established in Saudi Arabia .

Ocean Scale has provided waste Management services from the company's inception. Ocean Scale believe that all wastes have to be uplifted, transported and disposed of safely and in a way that complies with appropriate legislation and causes no harm to the environment.

Ocean Scale currently provides waste management services to the power, water, oil, petrochemical, Industrial, construction, residential and commercial sectors from three strategic locations through out the Kingdom of Saudi Arabia.

● Dry Waste Collection

Waste containers in sizes from 1.1 cu m to 20 cu m are available, with compactors, skip loaders and hook loaders all part of the Ocean Scale fleet. Ocean Scale will also look to carry out site waste Audits and provide advice to clients on how to best manage their waste on site.

● Portable Toilet Hire and Services

The supply and service of portable toilets to construction sites, manufacturing sites and remote areas. Services include effluent removal, cleaning and disinfection and replacement of chemical charge. This service is provided using purpose built vehicles.

● Liquid Waste Collection

Ocean Scale operates an extensive fleet of tankers and vacuum tankers with capacities ranging from 3000 to 6000 US Gallons. This fleet allows for the collection and transportation of sewage sludge.

● Scrap Metal Trading

Ocean scale purchase and collects scrap metals from diverse locations, sort them according to their composition, store them and then sell them to various scrap metal recyclers.

We buy a variety of metal scrap such as steel , Copper, brass ,aluminum, nickel, stainless steel, zinc scrap, electronic scrap , steel pipes scraps.

Technical Manpower Supply

We are committed to provide total solution to our clients manpower recruitment concerns and our candidates successful deployment.

The following are the few categories of our Manpower Supply :

PROCUREMENT PERSONNEL

- Buyers
- Expeditors
- Logistic Officers
- Subcontract Administrators
- Storekeepers
- Warehouse / Material Clerks

ADMINISTRATIVE PERSONNEL

- Accountant
- Technical Clerks
- Project Administrators «Time / Attendance Clerks
- Admin. Clerks
- Logistic Coordinators «IT Administrators
- Drivers
- Janitors

PROJECT CONTROLS PERSONNEL

- Contract Engineer
- Planning & Scheduling Engineer
- Cost Control Engineer
- Quantity Surveyors — All Discipline
- CAD Operators

CONSTRUCTION MANAGEMENT PERSONNEL

- Construction Supervisors — All Discipline
- HSE Personnel
- Project Engineers - All discipline
- HSE Personnel
- Inspector — All Department
- API Inspectors
- Supervisors — All discipline

TECHNICAL WORKFORCE

- Foremen - all discipline
- Welders -TIG / MIG / 6G etc
- Crane Operators
- Forklift Operators
- Heavy Duty Drivers
- Equipment Operators
- Riggers
- Electricians
- Instrument Technicians
- Cable Technicians
- Fabricators
- Pipe Fitters
- Industrial Fitters
- Machinist
- Mechanics — Diesel / Patrols
- Sand Blasters
- Spray Painters
- Carpenters
- Scaffolders.
- Steel Fixers
- Drivers — Light / Heavy
- Plumbers
- Skilled & Semi-Skilled

**A NEW EXPERIENCE OF
HUMAN RESOURCE**

Equipment Rental

We can solve your equipment needs and problems with our wide experiences over the past years.

HEAVY EQUIPMENT

- Backhoe
- Backhoe/Loader
- Blasting Machine
- Bulldozer
- Concrete Pump
- Crane
- Forklift
- Grader
- Loader
- Piling Hammer
- Rock Breaker
- Rock drill
- Roller Compactor
- Material Handler
- Boom Truck
- Bus
- Dump Truck
- Farm Tractor
- Farm Trailer Highway Truck
- Tankers
- Low Bed & Flat Bed Trailers

LIGHT EQUIPMENT

- Air Compressor
- Cable Trailer
- Cable Winch
- Concrete Cutter
- Concrete Mixer
- Concrete Vibrator
- Flood Light
- Friction Winch
- Generator
- Ground Auger
- Jumping Jack Rammer
- Man Hoist
- Pedestrian Roller
- Plastering Machine

LIGHT VEHICLES

- Ambulance
- Half Lorry
- Lubrication Truck
- Man Lift
- Mini Bus
- Tricycle
- Motor Cycle
- Pick Ups
- Sedan
- SUV
- Winch Truck

**24X7 FOR BETTER
CLIENT SATISFACTION**

Scaffolding

- Project support Scaffolding Services
- Construction support Scaffolding Services
- Turn Around Scaffolding Services
- Scaffolding Material Hire
- Scaffolding Manpower Hire.
- Scaffolding Inspection Services
- Scaffolding Designs and Calculations

Quality Policy and Statement

As a Quality conscious organization, Ocean Scale shall operate to achieve maximum customer satisfaction and Quality service.

These objectives will be implemented and carried out by:

- › Complying with all national/ international standards, codes and regulatory requirements
- › Optimizing resources and reducing wastages.
- › Development of our facilities and training of personnel.
- › Ensuring cost effective jobs, services and delivering it right time.

These objectives will be implemented and carried out by:

The management is responsible to ensure that quality management planning is scheduled and carried out and that the integrity of the system is maintained. The following items will be considered as input to the planning.

- › Quality Policy and Objective
- › Customer feedback
- › Needs and expectations of the client
- › Standards and weakness of previous projects
- › Corrective actions
- › Customer suggestions and preventive actions.
- › Perceived opportunities and threats
- › Necessary assessments, measurements, verification and monitoring.
- › Changes affecting QMS.

Safety Training and Procedures

- › Safety Tool - Box Meeting /Talk (TBT) At Construction Sites

Awareness of safety in construction, and knowledge about hazard and their elimination / minimization in construction activities is one of the prime functions of the Project Manager /SSO This awareness is essential to prevent accidents to man, machine and environment under his control & responsibility.

- In order to prevent accidents, SSO/PM has to his knowledge about safe practices into action. To being himself and then ensure that safe practices are followed by all, who are working at his site and particularly by workmen, who actually carryout the construction Activities.
- › himself and then ensure that safe practices are followed by all, who are working at his site and particularly by workmen, who actually carryout the construction Activities.

- Due to the typical nature of construction activities/sites, knowledge, culture, skills and attitudes of workmen to safety vary forms site to site and it is necessary for PM to impart to workmen the knowledge and skill about safe practices in construction activities, in general and specific to his site.
- › workmen to safety vary forms site to site and it is necessary for PM to impart to workmen the knowledge and skill about safe practices in construction activities, in general and specific to his site.

- › Procedure spells out the requirements of conducting Tool BOX TALKS(TBT) at each site their timings, their frequency, subjects and responsible person.
